Cruisin' Around the Mountains—2011  
 June 3-6, 2011. Visit the website, [www.vetts1.com](http://www.vetts1.com) for more information.

Thank you and God bless our troops. Please keep our soldiers and their families in your prayers.

## Ocean City and Upcoming Events

Our next few events are in the works. A day trip is planned to Cider Mills in Broadalbin on October 3, 2010. For more information on this event, visit Cider Mills website at <http://www.eaglemillfun.com>. Cider Mills is hosting the seventh Corvette Cruise-in in conjunction with Vettes in Perfection Corvette Club (Cathy and Dan Musslewhite, our members "other club") Live entertainment, breakfast and lunch are served, great doughnuts in the bakery and a bunch of fun! Watch them make cider in the mill! The fee for the show is \$10.00, Breakfast is \$7.95, and there is a BBQ lunch served, which is ala carte!

After that, a week off, then it is off to Ocean City Maryland for Vettes at the Beach. We are staying in a new hotel this year, the Holiday Inn Express. This is close to the host hotel, walking distance to Tequila Mockingbird, and other restaurants. We will be arriving there on Thursday and departing on Sunday morning. Lots of fun ... pray for sun!

We are participating in the cruises. We found that it doesn't make much sense to register for the show ... which is held simultaneously to the cruises.

Our usual mo is to go out for Maryland Crabs on Thursday, Tequila Mockingbird on Friday. Get your reservations and see you there!

It's usually our last get together of the season (except the Christmas Party).

## Cruisin' Around the Mountains 2011

Plans are underway, and fairly close to completion for next year's Cruisin'. The sixth annual Cruisin' Around the Mountains is going to be awesome with some additions, some deletions and the same great fun.

The Friday Evening welcome party is back at the Best Western. We found that the Civic Center was just a bit big. We are working on the menu for the weekend, but it will be fairly light fare with several restaurants within walking distance for a full meal after the party. Saturday's show will be also held at the Best Western. The show will be held from 8:00 am til noon. Cars must be in place by 9:00 am. Judging will be at 11:30 am. There will be a break in the festivities from 12:00 til 1:15 for lunch (on your own). The cruise will line up at 1:30 and leave at 1:45.

The big changes this year are an "awards" banquet at the Red Fox. If you require transportation to the Red Fox, it will be provided.

Sunday's big change is the new "American Cars, Hot Dogs and Apple Pie" show at the Civic Center. This event will be open to all American-made cars. Visit the website for more Hope to see you in June!

Details to be forthcoming.

### Support our sponsors!

With the current economy being so volatile, it is important to remember to support those businesses that make our club so great. Please check with our sponsors or members first ... give them a chance, if they can't help you, it is certainly understandable ... just remember, Support those who Support us!

### Check these out!

BlendMount is a patent pending mounting process designed to mount your aftermarket accessories for a factory-installed look. These innovative, quality mounts are constructed of durable, lightweight, black anodized aluminum that attach to the stem of your rear view mirror. No More Suction Cups!!! The newest and most popular BlendMount is designed for radar detectors.

MGT Motorsports is located in Northern California. BlendMount is their first product line which is a custom mounting process designed to mount your aftermarket accessories with a factory-installed look. Their latest release is their custom radar detector mount for the C6 Corvettes. We take pride in manufacturing a very high quality product. All of their aluminum parts are machined in-house and over the last five years we have developed outstanding relationships with their local vendors, all within a 10 mile radius. This assures us that all parts are consistently produced to their very stringent specifications. Bottom line, Quality Always Comes First.
